 Reading time: 1 min.

In order to make it easier for readers to access the new features of this publication, as to the static part of the site, every now and then – when we accumulate some changes worth mentioning – we will do an update via an article.

For now, we would like to point out the opening of the social media channels **Facebook** and **Twitter**, which allow you to stay up-to-date on new articles via these services, in addition to the **FEED-RSS** and **Newsletter**, already present since the launch. You will find the links at the bottom of the page (in the footer).

The Salesian Bulletin Archive has been enriched with issues of the printed Italian Salesian Bulletin up to the year 1901. This is a new scanning in high definition and character recognition (OCR) to allow a more accurate search. The intention is to offer the complete collection of this Bulletin, including supplementary issues, which have never been presented.
The indexes are available for now from the beginning, from August 1877, until May 1883; later they will also be completed.
We have thought of offering quick access to the issues of this publication, creating a page especially for this purpose, which can be accessed via the link indicated in the initial text of the Salesian Bulletin Archive page, and also found HERE.
Please note that the page is only available in Italian because the Bulletin is in Italian. However, as the PDFs are searchable, the texts can be selected, copied and have them translated using *Google ® Translate* or other similar services.

We thank you for your attention and wish you fruitful reading.
